Wiring diagram

NOTE

- The numbering of the switches are read from right to left.

- Live out to the lights:

- Yellow wire → Light 1
- Blue wire → Light 2
- White wire → Light 3
- Orange wire → Light 4

Step 1

Before you connect the device to the app, power it on & see if there is a blue LED flashing from the Wi-Fi switch module, if there is no blue light, lift the garage module & you'll see a button. Press & hold the button for 5 seconds until the blue light flashes.

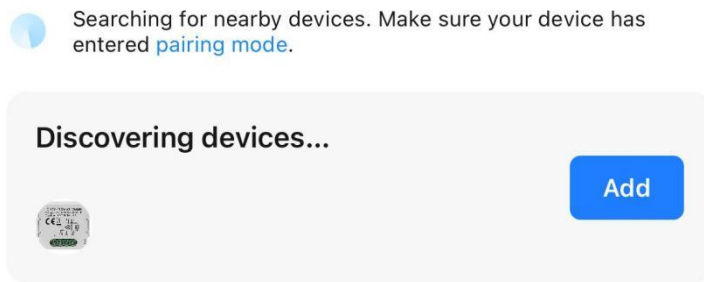

Step 2

After confirming a flashing blue light, proceed to the Smart Life or Tuya Smart app and press the '+' icon to add the device.

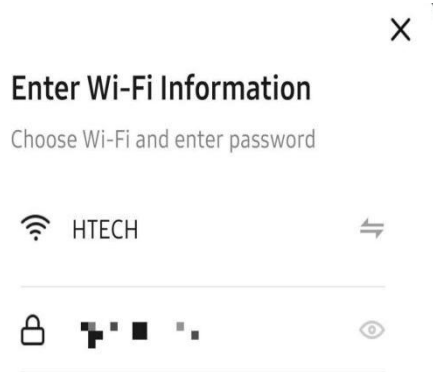

Step 3

Once you've tapped on add devices, the Wi-Fi switch module should automatically be picked up. Tap on the blue add button.

Step 4

When you've tapped the blue add button, it will ask you to enter your WiFi network to which the device will be connected. You can skip steps 5 - 8 if you are successful.

Step 5

If your mobile device does not support Bluetooth, scroll down to the smart devices Tuya offers. Go to the electrical section & find 'switch (Wi-Fi)'.

Step 6

Confirm that the indicator light is rapidly blinking & proceed to the following page which will pair the device to your Smart Home.

Press and hold the RESET button for 5 seconds until the indicator blinks (subject to the user manual).

Step 7

The device will pair with your application, the device will be added within 2 min. If failed, check your WiFi details & confirm the blue LED is flashing rapidly.

Connecting Device
Keep the network stable.

01:56

Step 8

When the smart device pops up in pairing mode, tap on add, & confirm your WiFi network to which the device will be connected. To learn how to rename the device & switches [\[click here\]](#).

Enter Wi-Fi Information

Choose Wi-Fi and enter password

Step 9

Once your device has been added, it is time to test it. Go into your smart app and switch on a switch, then manually switch off your light.

Warranty
